and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I own three TracFones. I bought two of them for my children so that I can keep in contact with them especially since there has been so much violence in our school. I am a single mother and I cannot afford to pay even \$1 more than what I already pay. That \$1 could be the difference of a school lunch for my children. Please consider all the single parents trying to make it through these difficult times by ourselves without having to rely on the government to help us out. Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Leslie Logan
